

Semester 2, Quarter 3

Reading Lesson Plan for February 8-12, 2021

Synchronous teaching: We want students to log in to all their classes on their remote days. Teachers will be on there, take attendance, and either have the students participate for the entire period or let the students know what they need to do that day and answer any questions about the assignment. We understand that at times there will be technical difficulties when trying to log on to a class. We will work with students as this occurs, and we are hopeful that these issues will lessen as we progress throughout the quarter. Our bell schedule can be found on our Star Middle School website. If students are not logging onto their classes on their remote day, they will fall behind in their schoolwork. We appreciate your support in this effort and help.
