

Mountain View High School Extra-Curricular F Policy

Each week an F report will be generated by the activities director and sent to each in season head coach/advisor.

If a student has an F on the day that it is generated, they are ineligible for all extra-curricular activities UNTIL they have a "D" or better in that class.

Each coach/advisor keeps their F report and marks students off of the list.

A student becomes eligible when either:

A Power School print off is given to the coach/advisor **OR** the teacher writes the student a note stating they have a "D" or better in that class and the note is given to the coach/advisor.

When there are multiple weeks in between assignments/tests where a student cannot improve their grade, the instructor may sign off on the student after the student has served the one week suspension of activities **AND** quality work, effort and tutoring has taken place in that class.

If a student feels there is an extraordinary circumstance they can request a review from a principal. If the principal approves the request the teacher, coach and student-athlete will be notified.
