Policy Title: Building Attendance Zones

Building attendance zones shall be reviewed periodically and shall be established by the board of trustees. The board will consider but will not be limited to the following guidelines in establishing or revising attendance zones:

A. Neighborhood Proximity – The board will consider proximity in order to promote neighborhood or “walk-in” schools and to minimize transportation in general.

B. Geographic Areas – Geographic areas should be based on easily identified and understood geographical features whenever possible.

C. Maximum Enrollment Guidelines – The District may limit the enrollment of any school, in order to provide the best educational environment.

D. Balancing of Enrollment – Enrollments should not be excessive in any particular school when capacity is available at another location.

E. Students with disabilities – The special needs of students with disabilities will be considered in establishing attendance zones.

F. Economics – The overall economics of the district’s operation should always be considered.

G. Special Circumstances – Unforeseen, special circumstances relating to any particular zone revision will also be considered.

H. The above considerations are not necessarily listed in order of priority.
