

“Rock the Test”
Set to Tune “All About That Bass” by Meghan Trainor

I'm all about that test about that test
Gonna pass it.
I'm all about that test about that test
Gonna pass it.
I'm all about that test about that test.

Yeah it's pretty clear that this test is brand new
But you can pass it pass it like you are supposed to do

You got all the skills skills that all the teachers chase
And have all the right smarts in all the right places.

As good students sight their evidence
Now this is the real deal so don't let it make you tense.
You are ready ready so now and focus
Every inch of you is ready from the bottom to the top.

So teachers told you don't worry about the time.
Just remember to double check your work and you'll be fine.
Do it. Do it.

Know if you get enough sleep and get a good breakfast at home.
You will be prepared as long as you stay in the zone.

Because I'm all about that test about that test
Gonna pass it.
I'm all about that test about that test
Gonna pass it.
I'm all about that test about that test.

We are bringing test back
Go head and tell all those others students that this is a fact
That ever inch of you is ready from the bottom to the top.

So teachers told you don't worry about the time.
Just remember to double check your work and you'll be fine.
Do it. Do it.

Know if you get enough sleep and get a good breakfast at home.
You will be prepared as long as you stay in the zone.

Because I'm all about that test about that test
Gonna pass it.
I'm all about that test about that test
Gonna pass it.

I'm all about that test about that test.
