

WALK-THROUGH METAL DETECTOR SCREENING

2019 Boise School District and West Ada School District Graduation Ceremonies

**Boise State University and Taco Bell Arena have one priority:
Keeping our guests safe.**

To accomplish this goal, Taco Bell Arena has implemented security measures to keep pace with evolving best practices for large crowds at venues around the country and to comply with Idaho law, which prohibits anyone from carrying firearms into Taco Bell Arena.

SECURITY PROTOCOL

All guests entering Taco Bell Arena will be subject to a metal-detector screening, visual inspection, and bag inspection conducted by security personnel.

WHAT TO EXPECT AT THE ENTRANCE

Screening areas will be placed at all open entrances of Taco Bell Arena, where guests will be screened prior to entry, bags will be searched and guests will be required to empty their pockets and pass through the walk-through metal detector. If the detector alerts, that guest will go through a secondary screening process. In most cases, the guest will be moved along without delay.

Patrons with mobility limitations and medical concerns (such as insulin pumps and pacemakers) will be accommodated and screened utilizing the Accessibility Lane, where they will be individually screened by the Entry Supervisor.
