These letters are a part of our history and our heritage that will never change. But FFA is not just for students who want to be production farmers; FFA also welcomes members who aspire to careers as teachers, doctors, scientists, business owners and more. For this reason, the name of the organization was updated in 1988 after a vote of national convention delegates to reflect the growing diversity and new opportunities in the industry of agriculture. FFA is inter-curricular and you must take at least one agriculture class per year to participate. All courses taught by Mrs. Stokes or Mrs. Wikoff, or through Ag at the Career and Technical Center at Meridian High School, make a student eligible for FFA. Today, the National FFA Organization remains committed to the individual student, providing a path to achievement in premier leadership, personal growth and career success through agricultural education.
