

# What can I do if my child is struggling in math?

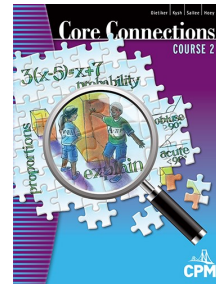

If your child's grade is low in math, please consider one or more of the following resources:

- ◆ Use "Homework Help" for every lesson's Review & Preview problems. The link to the Homework Help is <https://homework.cpm.org/cpm-homework/>

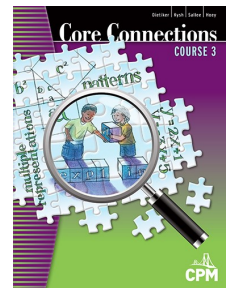

- ◆ 6th Grade is the 1st Red Book

- ◆ 7th Grade is the 2nd Blue Book

- ◆ 8th Grade is the 3rd Green Book

- ◆ Use the Parent Guide that was handed out to every student at the start of the school year for extra practice problems and helpful notes for every lesson
- ◆ Sign up for GRIT time help (student must see math teacher for a GRIT time pass)
- ◆ After school math help in Ms. Price's class (room 18) on Tuesdays and Thursdays until 4:15pm
- ◆ Sign up for a math lab class (you must speak with a school counselor for this as it changes the student's schedule, and students must meet criteria to be eligible for math lab classes)
