Art Activities, May 25-29
The visual arts can lift us up and, when shared, can lift others, too!

Choose from the following options or pursue your own artistic creations. Just work on building your creative and problem-solving muscles, and experience Art in your life. Do what you can with the supplies and tools you happen to have at home – no need to go to the store or spend any money. Stay safe and well!

**DRAWING**

Sometimes coming up with what to draw is half the battle. Choose one (or more) ideas from the list below and draw them. Remember, these don’t have to be realistic. They can be abstract, simple, or cartoons and done in any medium-pencil, pen, marker crayon, colored pencil, etc. Have fun and be creative!

- Draw something or someone you love
- Combine 3 existing animals to create a completely new creature
- Draw the oldest thing in your refrigerator
- Draw yourself as an original superhero
- Draw an object melting
