Drama Remote Learning May 25th through June 2nd

This week the idea is that we are performing. Pretty much it. There are a few activities you can work your way through… and then we are performing. I would loooooove to have your performances on flipgrid… on TEAMS but if that doesn’t work out I will survive.

I intend to have some specifics about flipgrid, tutorials and what not, posted as well to help us take a stab at this ‘new thing’ and see what happens. If you don’t feel like messing around with some of the technology etc. Highly encourage you to perform for family and see how that goes.

The last bit is there is an assignment posted to TEAMS that is just simply an end of class evaluation. I do these purely for myself to try and improve as a teacher. This one has a bit more focus on online learning and it would be very helpful for me to have you work through that as well.

Activity 11
Find an appropriate costume for your character from items in your closet. Go over your lines - reviewing is VERY important! The huge advantage you have if you intend to film this, is that if you do screw up your performance, you can just re-do/re-record it until you are satisfied.

Activity 12
Rehearse your monologue for a family member and get feedback OR get onto flipgrid and get feedback from your teacher!

Activity 13
Rehearse on your own based on the feedback you received yesterday! Then get one more round of feedback

Activity 14
Perform your monologue for your family or get onto flipgrid and record it to share for the class!
End of Semester Feedback

“Studium discendi voluntate quae cogi non potest constat”

(LATIN: Quintilian Institutio Oratoria, iii) Translated to:

“Study depends on the good will of the student, a quality which cannot be secured by compulsion.”

I cannot force you to learn. Still we are trying… one thing that helps me considerably is what you think. Please answer the following questions so that I can work to become a better teacher not only professionally but through the eyes of my students as well.

1. What are some things you liked or enjoyed about this class?

2. What are some things that you did not like or bugged you in this class?

3. What are some things that you would have liked to study more in class?
4. How could we make this ‘online version’ of the class work better?

5. What is something that you think would help this class to work better overall?

6. Is there something(s) that you think would make me a better teacher? (I won’t take it personal I promise)
7. What would you say was the most memorable moment (or moments) from this class?

8. Finally, Tell me something you learned about yourself....
