- **Criteria:** *Size:* 2-dimensional work (painting, collage, prints, drawings, etc)  
No larger than 18" x 24", must be flat and not exceed more than a 3/8-inch thickness. Entries may be submitted on paper, canvas board, or cardboard. If the art differs from these criteria, please contact Amy Vaughan prior to submission. Entries not meeting these criteria may not be framed.  
**Please do not frame your own art work.**  
3-dimensional work – no size limitation.

*Subject Matter/Theme:* **Celebrate Idaho in Our Community** (land marks, state symbols, special places, geography, people important to Idaho history, etc).  
Controversial subject matter should not be submitted.

*School or Home:* Work submitted can be completed at school as part of an assignment or an independent project but may also be completed at home. Work completed at home can be submitted with the understanding that the work is clearly the work of the student. Care should be taken to respect creative property of any other artist. Work submitted should, in all cases, be representative of a student's body of work. If a submission's authenticity is questioned, please attach a note with your concerns when submitting the student's work. Judges will be informed of the concern.

- **Submission of Work:** Students should be invited to submit one piece for the building selection process. Teachers should not feel stressed or pressured to produce "art work" for this project. We encourage students to submit work completed earlier in the year or to create a new piece if time allows.  
Each student's submission **must** be accompanied by a completed student entry form. Students may resubmit work juried and chosen as winners in other art contests (e.g. PTA sponsored "Reflections" project) but should not automatically be chosen without going through the same process required of other submissions.
- **Judging:** Buildings will individually choose the format used to select their school's *School Choice Award*. Schools should consider using judges from outside their school community to alleviate any perceived bias from "in-house" judges. Buildings may choose to begin the selection process at the classroom level to help limit the number of pieces judges will view at the final building selection level.
