## WELCOME BACK!

**MATH:** We just finished our measurement unit. We had a great day practicing telling time today with our classroom transformation! The theme was Kings and Queens and the kids had a blast. The next Module we work on will be going on until the middle of January. This one goes back to multiplication and division and dives a bit deeper into the properties. I have noticed there a lot of kiddos who still don't know their multiplication facts. I will be sending home some flash cards next week for students to practice with!

**ELA:** Students have been doing great with their narrative writings. I was really excited to show their work to my teammates. I am proud of their indenting and editing skills. We will continue to work on dialogue and adding details but I am so proud of the progress they have made so far! My goal is to have all cursive letters taught before we go on Break so students can practice. We will do a number of different fun cursive activities when they get back!

**Science:** This science unit has been a lot of fun so far. We have experimented with fruits and vegetables and the students got to dissect flowers to look at the different parts. It really is a fascinating unit. After Track Break we will be moving onto our Economics unit.

**Fall Activities:** Thank you so much for everyone who has already signed up to donate items for our fall activities. The kids are so excited! There are still a few items we need, if you could check the sign up genius. Just send items in with your child.

## IMPORTANT DATES

### COMING UP:

- Trunk or Treat Friday, October 25th from 6-7pm.
- October reading calendars will be due next Friday, November 1st. If students return these they will get a free personal pizza coupon from Pizza Hut's Book It Program.
- Track Break will be November 9th-December 1st.
- Book orders are coming home today and will be due on Friday, November 8th. This is a great way to get your kiddo some great Christmas presents! They will get here right after Track Break. If you purchase something and would like it to be a surprise gift, PLEASE LET ME KNOW. That way I can send it home with you! Our online order code is Q8BQT
