MATH: We have been working on multiplication and division again and the students have been doing really good. We have been working through some of the properties we have already learned and the students are doing so much better with them! I had an awesome parent volunteer (thanks Kelly!) copy and cut out multiplication flash cards for each student. Please continue to have your child practice these as well as do Zearn and Reflex over the break. The goal is by the time we get back they have their facts down and can recite them quickly.

ELA: It is so important that students continue to read over the break as well as work on their cursive. I will be sending home a pink packet today that will include a lot of cursive practice! This packet is not required, however if students finish the packet as well as 6 Zearn lessons and 6 Reflex green lights they will get a prize when they return to school.

Social Studies: When we return we will be starting our economics unit. This is such a fun unit and it is so interesting for the kids to understand and learn how money works and the purpose of banks. We will do a really fun project called Market Day at the end of that unit, but more information will come out about that when we get back from break.

MISC.: If you could each email me a picture of your child reading over Track Break that would be awesome, also if your child does anything fun over break feel free to send those pictures as well! We also have the great opportunity for the kids to get to participate in a 45 minute ballet lesson once a week started the second week in December. I have done this in the past and the kids love it! It is so great for students to get a break and learn some really fun concepts.

IMPORTANT DATES

COMING UP:

- Axiom Fitness log due Thursday, December 5th for students to earn their Wahooz Ticket
- No School November 9th-December 1st
- School resumes on Monday, December 2nd
- No School on Friday, December 6th
