LINDLEY DAIRY
work up age and pricing on used milking equipment.

Pipeline units and receiver \$ 500.00

Plate cooler \$ 500.00

Milk tank 5000 gal dairy cool with water cool units \$ 1250.00 this unit over 40 year old R-12
FREON.

Milk tank Miller 2500 gal with water cool unit \$1250.00 THIS UNIT OVER 40 YEAR OLD R-12
FREON.

PARMA WATER PUMPS

2" 5 HP MOTOR 3PH 208 VT \$500.00

2" 1 /2 7.5 HP 3 PH 208 VT
\$500.00

Note this equipment is over 40 years old and has price on scrap price on milk tanks and will
need to have Freon gas removed and by service person.
Parma water pumps are old as well 7.5 hp. look to be best shape.

To whom it may concern;

I value the contents of the milking parlor, stainless line, milking claws, receiver, milk pump, sanitary trap at scrap price, and that is .24 lb. and there is approximately 200 pounds and that comes to 48.00.

The plate cooler in the milk room is worth the same scrap price and that is worth 108.00.

The 3000 gallon Mueller tank is in poor shape and needs agitator work I value it at .50 per gallon and that is 1500.00 but to move it and capture the Freon will cost approximately 600.00 to ready the tank for removal.

The 5000 Dari-kool tank is worth about the same as the Mueller tank at .50 per gallon and the same to ready the tank for removal.

The two-inch manure pump is worth 250.00 and the four-inch pump is worth 500.00.

I value the entire worth of equipment at 4,906.00
