As you are probably aware, **you can improve your German grade** (if you don't already have an A). This means that everyone can get A's! **If you wish to make up or redo any assignment please email me directly with a list of the assignments, quizzes or tests** that you would like to redo, and we can work out a plan for you.

The main thing that you can do to brush up on your German right now is to study vocabulary.

As you know, I have uploaded most if not all of our vocabulary from this entire year into Quizlet. You can use the link below to access all the Quizlet study sets for German 1. Quizlet has lots of ways to study including modules called **Flashcards, Learn, Write, Spell, and Test**. There are even games called **Match**, and **Gravity** that you can use to familiarize yourselves with vocabulary while having fun at the same time.

EXTRA:

You only need to focus on German 1 right now, but if anyone is looking for more to do, here is the vocabulary that we have covered so far in German 2 / 3:
