

# Immersive Reader in Microsoft Word Online and Client Versions

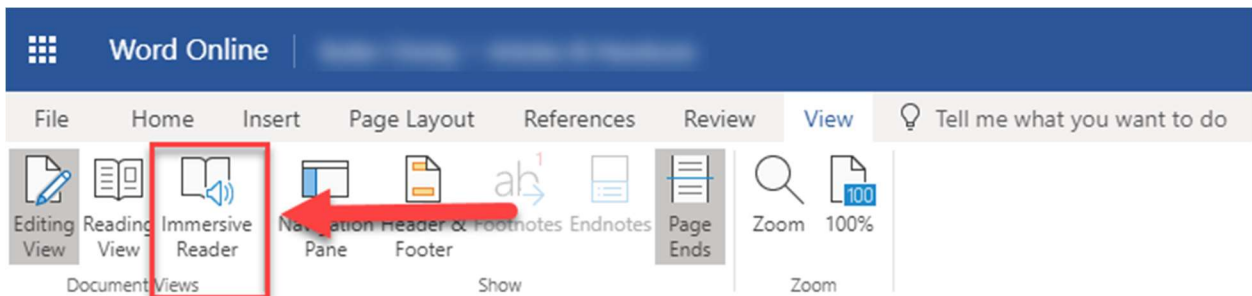

Immersive Reader in Microsoft Word provides text to speech support for students. This tool can be used to listen to text read aloud to aid in reading comprehension or to assist with the editing process of writing. To access this tool please follow the instructions below.

## Microsoft Word Online

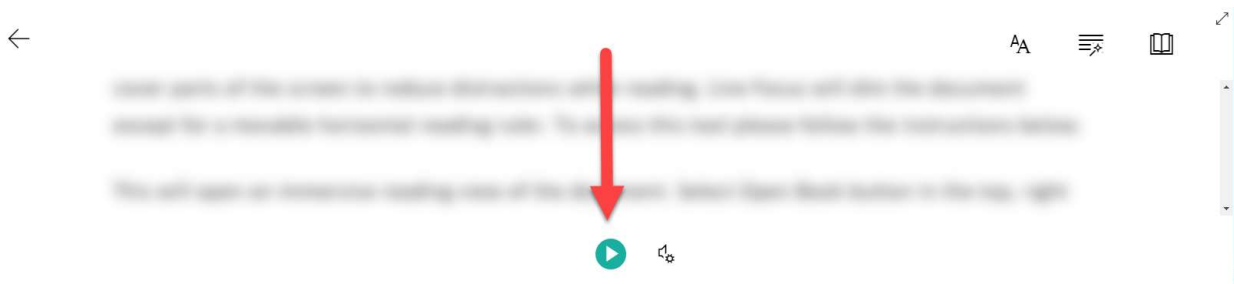

1. Select the **View** tab.

2. Select the **Immersive Reader** button.

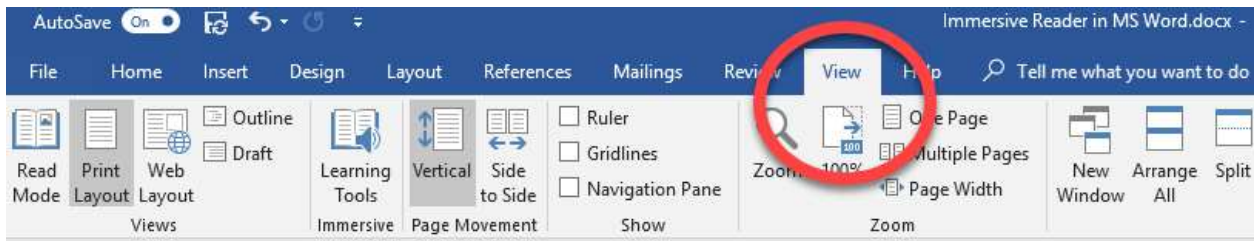

3. This will open an immersive reading view of the document. Select the **Play** button in the top, right corner.

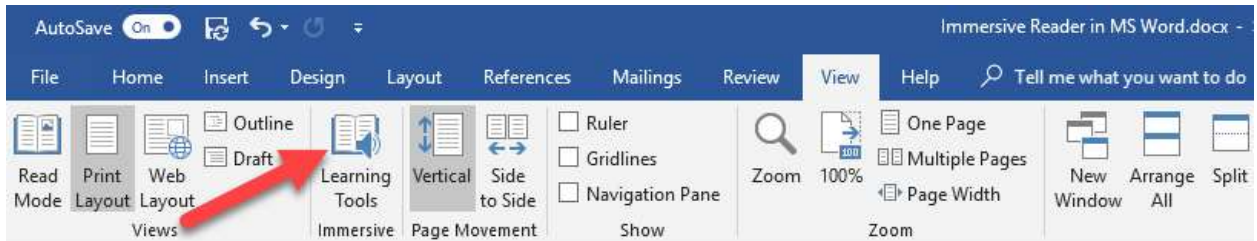

## Microsoft Word Desktop/Client Version

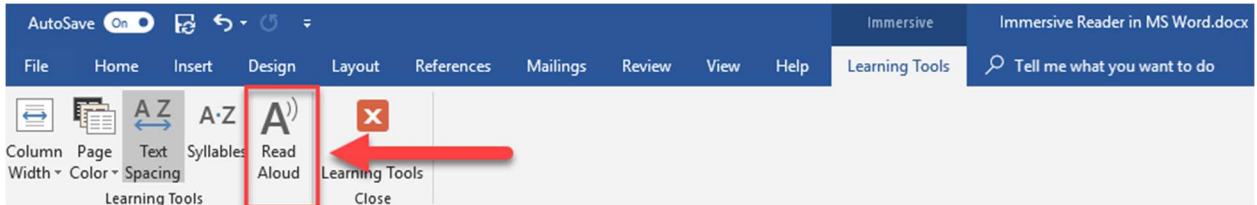

1. Select the **View** tab.

2. Select the **Learning Tools** button.

3. This will open an immersive reading view of the document. Select the **Read Aloud** button in the top, right corner.

4. Select the **Play** button in the upper, right corner to listen to text read aloud.
