## Science

This month in science we have continued our unit called Spinning Sky. This unit helps students develop the idea that the sun, moon and stars change position in the sky in ways that are fun to watch and predict. There are many fun lessons and experiments that we will be doing!

## Math

In math this week we are working on finishing module 1 and will be taking our end of module test. We will also be using different strategies to help us solve addition and subtraction problems. We are becoming some pretty great mathematicians!

## This Week

\*It's starting to be that time of year again, please send your students to school with a warm sweatshirt or jacket.

\*PLEASE remember to have your students charge their iPad. We are having lots of them die when trying to use them at school. Thank you.

\*Please remember to read 15-20 min each night. Nov. reading logs will earn a book from book box.

Thanks Mrs. Moulton

**Ask your student about what sequence of events mean. We talk about the order that things happen in a story. Have them share about a musical day!**
